

SRH University

We are looking for you: Postdoctoral Researcher f/m/d

To support our School of Psychology, we are seeking a full time (100% / 40 hours per week) postdoctoral researcher (fm/d) to start on November 1st, 2026. The position is fixed-term until the 31st of October, 2029. If you have any questions regarding the details of the position, please contact: Prof. Dr. Joachim Haß | E-Mail: joachim.hass@srh.de | +496221 6799 505

What you can look forward to:

University Environment | Dynamic and flexible teaching environment at a growing, international and future-oriented university
Teaching | Independent organization of teaching
Campus | Beautiful, easily accessible campus
Facilities | Modern classrooms and the latest technology

Your responsibilities:

- Conducting a research project in the field of computational neuroscience
- Development, simulation and analysis of biophysical neuronal networks for unraveling potential common neural mechanisms of time perception and working memory
- Dissemination of results in conference presentations and scientific publications
- Opportunity to contribute to planning, conducting and analyzing EEG experiments
- Opportunity to pursue own research questions and contribute to grant proposals

Your profile:

- PhD (completed or submitted) in computational neuroscience, physics, mathematics, computer science or a related field
- Excellent analytical and programming skills (MATLAB, Python)
- Research experience and publications in computational neuroscience, ideally in biophysical neuronal networks
- Interest in dynamical systems theory, cognitive neuroscience and/or neuropsychology and artificial neural networks. Experience in any of these fields is welcome but not required.
- Very good command of the English language (written and orally), German language skills are not required
- Ability to work both independently and collaboratively, output orientation and scientific ambition

Any questions? I'm happy to help:
