

SRH University

We are looking for you: Professor for Translational and System Science in Tech Innovation and Healthcare f/m/d

We are looking for a full-time professor in the area of Translational and System Science in Tech Innovation and Healthcare to support our School of Technology and Architecture. The position is permanent and starts January 1st 2027. For questions please contact: Prof. Dr. Michael Hartmann | Tel. Tel. +49 (0) 6221 6799-145 | michael.hartmann(at)srh.de

What you can look forward to:

Work-life balance | Balanced work-life balance through mobile working and generous and flexible working hours

Mobility | Business bike, subsidy for Germany ticket

Further development | coaching pool, parenting compass, study discount at the Mobile University and employee appraisals

Savings offer | Corporate benefits: discount store for employees only

Equipment | Modern office and seminar equipment

Security | Company pension scheme and value account

Volunteering | #TeilDeinGlück and receive additional paid time off

Your responsibilities:

- Holding competence-oriented courses in the English-language study programs on Bachelor and Master's degree level at our campus in Berlin
- Instructing the students in acquiring the intended competencies, conveying the necessary course content using didactically suitable methods and grading the examination results
- Supervising research as well as bachelor and master thesis projects, including mentoring students
- Partner management and publication of selected work and research results in scientific journals as well as presentation on national and international conferences
- Taking responsibility for specific modules ranging from the selection and guidance of lecturers to the accreditation processes
- Willingness to take up further academic functions, i.e. regional Head of Study Programme, and to participate in the self-administration of the school or university

SRH University

We are looking for you: Professor for Translational and System Science in Tech Innovation and Healthcare f/m/d

Your profile:

- Medical Doctor or Ph.D. in Tech Innovation, Health Systems, Biomedical, Health Informatics, or in a related field of research having achieved at least the grade "very good"
- At least five years of unique professional experience in the area of translational science and systems innovation in multiple industries and sectors including health care or related fields, of which three years must have been conducted outside university
- Leadership experience in executive level in profit and non-profit sectors as well as extensive knowledge and experience in multiactor systems, AI strategy and integration
- Relevant publications and conference contributions or equivalent activities in the field
- Teaching experience at a university in the English and German language
- Willingness to actively develop and accompany learning processes according to the CORE principle, as well as an independent and responsible style of working

Any questions? I'm happy to help:
